QUALITY DOORLITES...THE ESSENCE OF YOUR HOME

From its very beginnings, VA Glass Design has built products that pushed and challenged the boundaries of our industry. For more than 25 years, we’ve been thinking differently, taking a position of leadership that has seen us set the trends and create new products in the styles of today and of tomorrow. With our new Absolute Collection, we put the purity and nobility of glass in its rightful place of prominence. The diversity of our designs ensures that we can readily meet your actual needs.

We produce doorlites that fit all budgets while presenting the greatest quality and breathtaking beauty. They’re also durable and secure, and designed and manufactured entirely in Montreal by our skilled staff of more than 125 professionals and artisans.

Quality doorlites, the essence of your home, is an expression of your personal character...and good taste. It is also a symbol of warmth and welcome for your guests, but above all, a quality doorlite represents added value to your residence—a true reflection of who you really are.

Thank you for putting your trust in our quality, home-made products.

Nicolas Barazin
President, VA Glass Design
SIMPLY CHOOSE FROM AMONGST OUR 5 COLLECTIONS
Whatever your taste, preference or budget, VA Glass Design has the product that’s right for you.

OUR COLLECTIONS ENTIRELY MANUFACTURED AT OUR MONTREAL PLANT

DECORATIVE  |  High Quality Non-Welded Decorative Doorlites
This collection speaks to VA-Glass Design’s excellent reputation for quality and innovation. The superbly precise aluminum caming assembly eliminates the need for soldering and its drawbacks. The result is an impeccable finish — solid and durable.

ABSOLUTE  |  The Interplay of Glass, Textures and Purity
This all-new collection is a revolution in the world of doorlites. Designed without caming, these models bear a modern, clean and pure appeal*. They are very high-quality products at a reasonable price, with a style that puts the beauty of glass at the absolute forefront. *New manufacturing technique. Patents pending.

IMAGINE  |  Digital Printing
VA Glass Design has mastered the art of ceramic printing on glass. This breakthrough technology fuses the pigments into the glass at tempering, ensuring durability for years and years.

EXPRESSION  |  Custom, Personalized Designs
This collection offers a vast array of glass, aluminum caming and configurations, with our excellent non-welded assembly process. Mix and match to your heart’s content, or choose from our many pre-designed models. The Expression Collection comes in 4 distinct series: Decorative, Absolute, Print-on-glass and Thermo-textured.

OUR IMPORTED COLLECTION

WELDED  |  Economical Stained Glass
Our lead welded stained glass lites have detailed patterns and a traditional look. This is our most economical collection.

DOOR OPENING DIMENSIONS

SPECIAL ORDERS
Upon request, we take orders on products with special dimensions or with changes in glass and caming.

TRANSOMS AND GARAGE DOORLITES
If you would like a decorative lite over your front door or in a garage door, we will make it to measure based on your selected model. Talk to your sales representative for more information.

ABOUT THIS CATALOGUE:
There may be variations in the colour of components seen in this brochure versus actual models, due to factors such as photo session lighting or the print quality of this brochure. Pictures may differ from models. Models may vary.
Our non-welded collection is the very reflection of our expertise. Our solderless technique is of the highest quality and durability because it eliminates any chance of oxidization, discolouring, thermal breakage and vibration often seen in welded products.

We are introducing this year many new models based on our sense of innovation as creators of trends in the doorlite market.

Caming is offered in five basic colours on all our models: black, silver, stainless, scotch and pewter.

This is our latest product line, the finest result of our creativity and innovation and the confirmation of our true leadership. A simple yet bold interplay of glass, textures and purity that is classic and noble. The glass is lovingly polished to a shine and brilliance that rivals that of a crystal in the sun.*

Result: a product of tremendous quality at an affordable price...that puts glass at the absolute forefront!

VA Glass Design employs the latest technological breakthrough in printing on glass: digital ceramic printing. The ceramic pigments are first printed, then fused to the glass at tempering, resulting in an impression that is resistant to light and scratches.

Each of our proposed models, including four new ones, is available for printing on clear or white acid etched glass. You therefore choose the degree of transparency desired for your door.

Visit va-glassdesign.com to find more ideas, models and information.

See Page 5 or go to va-glassdesign.com for other available configurations and dimensions.
This collection offers a multitude of choices in configurations. Feel free to create your own design or choose from the large variety of pre-designed models and styles suggested.

The Collection comes in **four distinct series:**

**DECORATIVE**
Four Step Design: Glass, Configuration, Caming and Bevel

**ABSOLUTE**
Same concept that made the success of our Absolute collection. Creation in two steps: glass and configuration.

**PRINT ON GLASS**
Black or coloured bands printed on different types of glass

**THERMO-TEXTURED**
Uno, Trio, Quattro and Cinco models with choice of textured glass.

Visit [va-glassdesign.com](http://va-glassdesign.com) to find more ideas, models and information.
CREATE YOUR MODEL AMONG THE FOLLOWING CHOICES. See the next pages to pick one of the 4 series.

CONFIGURATIONS The configurations marked with an * are the only possible for ABSOLUTE series.

CAMING REGULAR (8 MM) LOFT 20 (20 MM) AND LOFT 40 (40 MM)
BLACK SILVER STAINLESS PEWTER SCOTCH CHROME BRONZE GOLD

**OUR SUGGESTION**

The beauty of Linata textured glass and our popular Loft 20 Silver caming makes this classic model a customer favourite.

**THE MATCHING OF BEVELED WHITE ACID GLASS AND OUR LOFT 40 STAINLESS STEEL CAMING GIVES THIS DOOR LITE AN INCOMPARABLE LOOK.**
THE ORIGINALITY OF KONFETTI TEXTURED GLASS ALONG WITH OUR LOFT 20 SILVER CAMING OFFERS YOU INTIMACY AND A TRENDY DESIGN.

THIS BEVELED SCREEN GLASS WITH NON-WELDED REGULAR PEWTER CAMING CLEARLY DEMONSTRATES THE ACUTE ATTENTION TO DETAIL GIVEN TO THE FABRICATION OF OUR DOORLITES.
Choose: 1. Glass 2. Configuration

**THE RICHLY TEXTURED CORDUROY GLASS IS ENHANCED BY THE SLEEK AND TIMELESS STYLE OF THE EXPRESSION COLLECTION.**

2- 5LIBL/V.C15.H
3- 5LIBL/V.CSL15.H

**OUR SUGGESTION**

THE SUBTLE CONTRAST BETWEEN THE MATT APPEARANCE OF LINATA GLASS AND ITS SHINY POLISHED EDGES ADDS SPLENDOUR TO THIS MODEL.

Original and very modern. The textile glass fits the current trend in design.
The **EXPRESSION PRINT ON GLASS** Collection employs our ultra-modern ceramic digital printing technique to print a 20 mm or 40 mm band in black or in the color of your choice on a clear glass surface with a textured glass in the background therefore suggesting mullions. Simplicity, wide variety and a great modern look!

Double glazed tempered for clear glass and triple glazed tempered for the other.

* Limited
Inspired by the Euro, our new PVC extruded EUROPA frame is available in two versions: EUROPA WHITE (PVC and HYBRID) and EUROPA STAINLESS. It matches our contemporary models perfectly. Flat, narrower (1.5") and more refined, it’s suitable for all door and lateral openings. It can also be painted. It meets Energy Star® guidelines and exceeds industry standards for air and water tightness under AAMA/WDMA/CSA 101/IS 2/A440-08.

Colour: White. Both versions can be painted.
Format: Suitable for all door and lateral openings.

EUROPA WHITE HYBRID. Ideal for coloured doors, this frame features PVC extrusion on the interior and a white painted aluminum extrusion on the exterior. With its classic look, this hybrid frame offers the best of two worlds: high energy performance, flexibility and durability.

EUROPA STAINLESS HYBRID. A perfect match for the stainless steel caming, this frame with exterior in aluminum stainless finish and white PVC extrusion on the interior shares the same characteristics as the EUROPA WHITE HYBRID frame.

EUROPA PVC. This Canadian-made frame is a white PVC extrusion that resists warping and yellowing.

DECORA frame is suitable for all VA Glass Design sealed units, in two versions: DECORA PVC and DECORA HYBRID. Both come with a discreet screw cover. They meet Energy Star® standards and exceed industry standards for air and water tightness under CAN/CSA A440-00 (B5).

Colour: White. Both versions can be painted.
Format: Suitable for all door and lateral openings.

DECORA PVC. This Canadian-made frame is a white PVC extrusion that resists warping and yellowing.

DECORA HYBRID. Ideal for coloured doors, this frame features PVC extrusion on the interior and a white painted aluminum extrusion on the exterior. With its classic look, this hybrid frame offers the best of two worlds: high energy performance, flexibility and durability.
Zones 1, 2 et 3
We have standardized the use of Low-E glass and argon gas to more effectively respond to Energy Star® requirements, and ensure top performance in energy efficiency. Most of our doorlites qualify for 1, 2 and 3 Energy Star® zones.

Anti-Intrusion Option

Safety laminated glass ANSI Z97.1
Security glass is offered as an option: the glass is tempered and laminated on the outside to protect its integrity against breakage or break-in attempt. Highly recommended with the purchase of a multipoint lock for maximum security.

Energy Star Certification

Zones 1, 2 et 3
We have standardized the use of Low-E glass and argon gas to more effectively respond to Energy Star® requirements, and ensure top performance in energy efficiency. Most of our doorlites qualify for 1, 2 and 3 Energy Star® zones.

Our Affiliations

Note: Textured glass used in the production of our doorlites may contain irregularities in the pattern, small air bubbles and streaks which are an integral part of the product. They are not considered defects.
